New Horizons Green Meadow Card

Here is another quick and easy card made with the New Horizons 6" x 6" Designer Series Paper. Other than coordinating solid color mats under the DSP, no embellishments were used...or needed, but you can add as desired.

Card Cuts:

Card Front

- Card Base – Cut 1 Thick Basic White cardstock to 11" x 4-1/4", score at 5-1/2"

- Mat for Front of Card – Cut 1 Misty Moonlight cardstock to 5-3/8" x 4-1/8"
- Card Front – Cut 1 New Horizons green meadow/blue sky pattern paper to 5" x 3-3/4".

Inside of Card

- Coordinating DSP for Inside of Card – Cut 1 at 1" x 5-1/4"
- Mat for inside of Card – Cut 1 in Basic White to 4" x 5-1/4". Note: When cutting this 1" strip, I made sure to get some of the green hills and sky in the strip.

Envelope Flap

- Coordinating DSP – Cut 1 at 2-3/4" x 6"

Assembling the Card:

Card Front

- I used stamps from the Friendly Hello and Dahlia Days stamp sets to stamp greenery in the lower right and left-hand corners of the 5" x 3-3/4" piece of DSP in Tuxedo Black Memento Ink. ***Stamping these images in the lower corners of the scene bring them to the forefront of the scene and gives the impression that you're looking down into a valley of green, then to distant hills.***
- Using a greeting from the Friendly Hello stamp set, I stamped directly onto the DSP scene in the upper right-hand corner in Tuxedo Black Memento ink.
- Adhere the New Horizons DSP panel to the Misty Moonlight mat.

Inside of Card

- Using a sponge dauber, lightly blend Misty Moonlight ink on the upper two thirds of the white mat. I did not sponge ink in a solid pattern, but rather sponged the ink on randomly to look like clouds.

- Adhere the 1" x 5-1/4" piece of coordinating DSP to the bottom edge of the Basic White cardstock mat.
- Adhere the mat to the inside of the card.

Envelope

- Using Multipurpose Liquid Glue, adhere coordinating piece of DSP to card flap, then fussy cut around envelope flap to finish.
