Today's card is a pop-up fun fold that I think you're going to like. I used the **Happier Than Happy Bundle** and the **Happy Forest Friends 12" x 12" Designer Series Paper** to create the card. You can find these items in the May 2022-April 2023 Annual Catalog. On with the card...

1. Card Cuts:

- Card Base - Cut 1 Smokey Slate cardstock to 11" x 4-1/4", score at 5-1/2"
- Pop-up Mechanism - Cut 1 Smokey Slate cardstock to 4-1/4" x 4-1/2". With the 4-1/2" side facing to the top, score at 4", 3", 2" and 1"
- DSP Panel for Front of Card - Cut 1 DSP from the Happy Forest Friends DSP
- Sentiment Label - Cut 1 Basic White to approximately 2-1/2" x 2-1/2"
- Scraps of Basic White cardstock for stamping and die cutting the bear, tree stump and mushrooms
- Scraps of Mossy Meadow and Garden Green cardstock for die cutting pine trees
- Inside DSP Panel - Cut 1 coordinating DSP to 5-1/2" x 4-1/4"
- Inside DSP Strip - Cut 1 coordinating DSP to 1" x 4-1/4"
- Inside Card Panel - Cut 1 Basic White to 4-3/8" x 4-1/8"

- Envelope Flap - Cut 1 coordinating DSP to 6" x 2-3/4"
2. Start by adhering the DSP panel to the card front. I chose a piece of DSP that depicted a forest scene.
 3. Stamp the following onto white cardstock, then die cut using the coordinating dies:
 - 1 Bear stamped in Soft Suede ink
 - 1 Tree Stump stamped in Early Espresso ink
 - 1 Mushroom stamped in Calypso Coral ink
 4. On a piece of scrap white cardstock, stamp the sentiment "Happier than happy for you" in Pear Pizzazz ink, then using the second to largest square die from the Stylish Shapes Dies, die cut the sentiment. I stamped the sentiment towards the right center in order to leave room for die cut embellishments. Adhere 1 die cut pine tree to the left of the sentiment label, slightly overhanging. Adhere 2 mushrooms to the bottom of the sentiment label. I used 1 stamped and die cut mushroom and 1 mushroom that I fussy cut from a piece of the DSP.
 5. Using Stampin' Dimensionals, adhere the sentiment label to the card front. Place in the lower left portion of the card.
 6. Adhere the inside DSP panel to the inside of the card base. Note: adhere to the back side of the card front. Refer to photo above.
 7. Cut and score the pop-up mechanism. Place a line of glue along the 1/2" section of this piece and form a rectangular tube. Next, adhere the rectangular tube to the inside of the card base. The mechanism sits right up against the center score line of the card base. Glue the bottom of the tube and the backside of the tube to the card base.

8. Adhere the 1" strip of DSP to the front of the pop-up mechanism.
9. Decorate the pop-up mechanism by adhering the die cut bear, tree stump, two pine trees and a fussy cut mushroom to the front of the 1" tube section. I adhered the two pine trees to the left side, then adhered the tree stump in front of the trees. The bear was adhered on the right side and the mushroom was placed in front of the bear on the far right.
10. Adhere the white inside panel to the inside of the card. Adhere one of the die cut pine trees to the lower right of this panel.
11. Stamp several greenery images, and a pine tree on the lower front of the envelope in Pear Pizzazz ink, and also stamp a mushroom in Calypso Coral ink.
12. Adhere a piece of coordinating DSP to the envelope flap, then fussy cut around the flap to complete the envelope.

This completes the fun fold pop up card! I love how the bear appears to be waving when you open the card. This fun fold makes a great display card as the card will stand up on its own to display the inside scene. I can think of so many great uses for this fun fold...think Halloween, Thanksgiving (pumpkins), and Christmas (a tree and presents)! Have fun!

Products used to make this card are included on the next page.
