## 1. Card Cuts:

- Card Base - Cut 1 Orchid Oasis cardstock to 8-1/2" x 5-1/2", score at 4-1/4"
- Outside & Inside DSP Mats - Cut 2 of the heart print in Orchid Oasis from the In Color Designer Series Paper to 5-3/8" x 4-1/8"
- Outside & Inside Panels - Cut 2 Basic White cardstock to 5" x 3-3/4"
- Small scraps of Basic White and Granny Apple Green
- Envelope Flap - Cut 1 coordinating piece of DSP to 6" x 2-1/2"

2. Adhere one of the DSP Panels to the card front using liquid glue.

3. Start with one of the Basic White panels measuring 5" x 3-3/4" and do the following:

- Using the sentiments from the Sentimental Park Stamp Set, stamp the sentiment "thanks" in Orchid Oasis ink onto the upper left corner of the panel.
- From the same stamp set, stamp the sentiment "You are amazing" in Orchid Oasis ink onto the lower right corner of the panel.
- Use the two-step multi-flower cluster from the Sentimental Stamp Set, and first stamp the detailed image of the flowers in Orchid Oasis Ink. Then use the "fill" stamp to second-generation stamp Orchid Oasis fill for these flowers.
- From the Sentimental Park Stamp Set, stamp the stem and leaf image detail in Granny Apple Green ink. Then, second-generation stamp the "fill" for the leaves - also in Granny Apple Green ink. The stem of this image should come off the right side of the flowers that you previously stamped and angle up towards the upper right corner of the panel.
- Use the small leaf cluster image from the Petal Park Stamp Set to stamp around the stamped flowers using Granny Apple Green ink.
- Use the dots image from the Petal Park Stamp Set and stamp around the lower left corner of the panel and around the previously stamped images using Orchid Oasis ink.

4. From a scrap of Basic White cardstock, use the Petal Park Builder Punch to punch out the three flower images. Use a blending brush to lightly blend Orchid Oasis ink around the edges of the large and medium sized flowers. On the smallest punched flower, blend Orchid Oasis ink over the entire flower and make this flower darker than the other two. Adhere the medium sized flower to the large flower. When gluing flowers together, only apply glue to the very centers of the flowers. Next, adhere the small flower to the top of the previously adhered flowers to form one flower. Gently curl up the flower petals on the assembled flower then use liquid glue to adhere the flower to the top of the stem you previously stamped onto the 5" x 3-3/4" panel.
5. From a scrap of Granny Apple Green cardstock, punch out two leaves using the Petal Park Builder Punch. Use the detailed single leaf image from the Petal Park Stamp Set to stamp detail on the punched leaves using Granny Apple Green ink. Adhere the punched and stamped leaves to the 5" x 3-3/4" stamped panel using liquid glue. Position the leaves just below the leaves from the stem and leaf image previously stamped.
6. Adhere the stamped panel to the card front using Stampin' Dimensionals and center from left to right and top to bottom.
7. Using the Sentimental Park Stamp Set, on the second white panel measuring 5" x 3-3/4",

stamp the same multi-flower detailed image in Orchid Oasis ink onto the lower right corner of the panel. Then, use the "fill" image to second-generation stamp the fill for these flowers in Orchid Oasis ink. Use the small leaf cluster image from the Petal Park Stamp Set and stamp this image several times around the flowers using Granny Apple Green ink. Adhere this panel to the remaining DSP panel and adhere this unit to the inside of the card.

8. Repeat stamping of the same two-step flower image and leaf image onto the envelope front - as you did in Step #7 above, using Orchid Oasis for the flowers, and Granny Apple Green for the leaves.
9. Adhere the coordinating piece of designer series paper to the envelope flap and trim the excess paper away from the flap.
10. Use two lengths of Orchid Oasis Metallic Woven Ribbon and tie a double bow. Adhere the bow to the stem of the stamped flower on the card front using a Mini Glue Dot.
11. Adhere a large Iridescent Rhinestone to the 3D flower on the card front. Adhere four small Iridescent Rhinestones onto the card front around the flowers and leaves.
